

Notice of Adjournment, SIOF2022

Dear exhibitors,

Due to the recent complicated and severe situation of prevention and control of COVID-19 pandemic, and to comply with the State Council's Joint Prevention and Control Mechanism regarding the deployment during upcoming New Year and the Spring Festival holidays, Beijing Winter Olympic Games and the holding of National People's Congress, Shanghai Municipal Government has issued the “Notice of Further Strengthening the Management of Pandemic Prevention and Control of Aggregate Events in Shanghai”, dissuading the holding of crowd gatherings. Thus, it is almost impossible for large-scale exhibitions in Shanghai to be held before March 31, 2022 to obtain approval from relevant authorities.

In view of the above situation, the Shanghai Optical Fair Organizing Committee has been maintaining close communication with the relevant departments of Shanghai, and at the same time actively negotiating with other exhibition halls in Shanghai and the nearby cities, striving to determine the venue and date of the exhibition as soon as possible.

The Organizing Committee of Shanghai Optical Fair will continue to plan and organize professional exchanges, and theme activities like industrial transformation and development during the exhibition to create a more innovative, effective and dynamic exhibition for the industry. We will announce you further information in time, please stay tuned.

Thank you for your understanding and support to the Shanghai Optical Fair over the years!

Organizing Committee of the 21st China (Shanghai) International Optics Fair
